

Husker Racing Baja SAE

2025/2026 SPONSORSHIP PACKET

BAJA SAE BACKGROUND:

The International Collegiate design series has a division known as Baja SAE (Society of Automotive Engineers). Baja SAE consists of competitions that simulate real-world engineering design projects and the related challenges. In Baja SAE, students are tasked with designing and building an all-terrain sporting vehicle. Each team's goal is to design and build a prototype of an all-weather, rugged, single-seat, off-road recreational vehicle. Which is intended for sale to the nonprofessional weekend off-road enthusiast. As a team students design, engineer, build, test, promote, and compete with a vehicle within the limits of the rules. Like real work situations, our future engineers work together as a team to discover and resolve technical challenges in design, testing, and manufacturing, as well as business issues. The most rugged of all the SAE competition having both static and dynamic events. Baja SAE gives students the first-hand challenge of pursuing their passion while managing real-life demands and priorities. For more information about Baja SAE please visit Bajasae.org.

HUSKER BAJA SAE TEAM:

The University of Nebraska Lincoln's chapter, Husker Racing, has been in existence for over 20 years and is one of the most decorated and acclaimed teams in the Midwest region. Our team attends at least one of the three U.S. competitions hosted. Husker Racing's success is built on the passion and dedication of the members throughout the yearlong, intensive design and build seasons.

Husker Racing provides a hands-on experience that students cannot gain inside of a lecture hall; this experience serves to help develop students with well-rounded professional skills in various aspects of the engineering industry. Equally important, students actively build non-technical skills vital to professional engineering: program/timeline management, budgeting, interpersonal communication, and conflict resolution.

At the University of Nebraska-Lincoln (UNL), Husker Racing accepts all students interested, regardless of major, year, or background.

SPONSORSHIP OPPORTUNITIES

Husker Racing relies on the generosity of the UNL College of Engineering and industry sponsors to provide raw materials, monetary donations, and technical advice. This funding goes directly towards the manufacturing of the car and travel expenses for competitions. We are always seeking new sponsors for the season; more details about our sponsorship tiers below.

RECOGNITION:

~ Industry leaders from all over come to competitions

EXPOSURE:

~Advertising on our social media and our car
~Marketing at competitions and other events attended by the team.

NETWORKING:

~ Meet and recruit experienced students.
~ Assist in students growth of industry knowledge and skills not learned in the classroom.

SPONSORSHIP LEVELS:

Levels & Values	Use of car for company events	Christmas card from 2026 team	Company logo on 2026 team shirts	Company logo on 2026 car
Platinum \$1000+				
Gold \$500 - \$999				
Silver \$100 - \$499				
Bronze \$1 - \$99
